

we have the Eversound wireless headphone system!

keeping our community connected & engaged

Eversound helps our community by providing long-range wireless headphone systems that are designed specifically to empower seniors. They transform daily activities into immersive experiences and are appropriate for those with and without hearing loss! Eversound keeps residents connected to each other, loved ones, and the community.

Eversound in action

The Eversound headphone system is available to residents for group programming like movies and games, and one-to-one conversations with staff and visitors, even virtually!
